## Software Engineer

---

### Professional Summary

Software Engineer with 6 years of experience designing, building and operation production systems across web, cloud, and integrations.

Experience translating business requirements into technical solutions, defining acceptance criteria, and supporting the delivery and maintenance of production systems in cross-functional environments.

Strong background in API-driven architectures, cloud infrastructures, CI/CD, and agile execution, with hands-on coding responsibility and stakeholder coordination.

👤 Check my portfolio at <https://neolivaresgonzalez.com>.

### Skills Highlights

#### Frontend Development

- React, TypeScript, Angular, Vue.js
- State management (Redux)
- UI/UX collaboration and implementation (Figma & FigJam)

#### Databases

- PostgreSQL, SQL Server
- MongoDB
- ORM patterns (TypeORM, Entity Framework)

#### Backend & APIs

- Node.js, Express (TypeScript-first)
- Python (Flask)
- .NET Core (C#)
- RESTful APIs, OpenAPI
- SQL & NoSQL data access

#### Agile & Delivery

- Sprint planning, backlog management (Jira, Confluence, Wrike)
- Acceptance criteria definition
- Code reviews and standards (Github, Gitlab)
- Cross-functional stakeholder coordination

#### Cloud & DevOps

- AWS, Azure
- Serverless (Lambda, API Gateway)
- Docker, CI/CD (GitHub Actions, GitLab CI)
- Infrastructure as Code (Terraform)

#### Platforms & Integrations

- Salesforce
- Stripe-style payment integrations
- Headless CMS (Strapi)
- Shopify Storefront AP

### Employment Experience

#### IT Project Manager (Software and information technology project manager)

Pontifical Catholic University (PUC)

Santiago, Chile

07/2022 – 08/2025

- Led development with 8 members cross functional team to enhance the Lead and source tracking on Continuing Education website and Salesforce instance.
  - Marketing team increased the engagement measuring in a 20% due to the improved way to track nonorganic lead source.
  - Admissions team decreased the relation time between leads-opportunities by 15% due to the relation established between records in Salesforce.
- Designed as Software Architect the new Continuing Education Platform with multiple components orchestrating the marketing and content management, admission and financial business processes.
- Exceled as Product Owner of the new Middleware Component for the new Continuing Education Platform with a fully serverless cloud-based solution with fully integrated CI/CD pipeline.

- By the time I left the company, a 100% of the new projects were using this new framework of Epics, User Stories and Acceptance Criteria which I proposed.
- New frameworks and architecture designs were documented on either SharePoint, Confluence or FigJam.

### **Project Engineer (Software development engineer)**

Kimn-IT

Santiago, Chile

01/2020 – 06/2022

- Developed production-grade full-stack systems used by banks branches in Latin America (Costa Rica, Nicaragua, Chile)
- Built web and desktop-based user interfaces using React, Vue, and TypeScript.
- Designed and implemented REST and SOAP APIs consumed by distributed frontend and hardware systems.
- Secured data consistency and operational reliability through backend development using .NET Core and SQL Server,
- Integrated hardware SDKs and third-party devices, managing backward compatibility and low-level interoperability.

## **Volunteering Experience**

### **Volunteering in Web Development Team**

White Haven Community Football Club

Scarborough, Canada

10/2025 - Present

- Collaborated with my experience and knowledge in software development process alignment through meetings, agreements and documentation.
- Proved Strapi CMS as a reliable way to give project managers the tool to edit and publish website content.

## **Education & Training**

### **Microsoft Certified: Azure AI Fundamentals**

Pontifical Catholic University (Credibly)

**Credential:**<https://www.credly.com/badges/870cefb2-4374-4bcf-9807-8594e4a0dd6a>

07/2024

Santiago, Chile

### **Bachelor's degree in Engineering Sciences (Software Engineering)**

University of Santiago (USACH)

03/2013 – 12/2021

Santiago, Chile
