Software Engineer | Full-Stack & Systems

Professional Summary

Software Engineer with 6+ years of experience designing, building, and operating production systems across fintech and Education SaaS environments. Strong background in API-driven architectures, backend development, cloud deployments, and system integrations.

Experienced translating business requirements into scalable technical solutions, supporting production environments, and collaborating with cross-functional teams across engineering and operations.

Skills Highlights

Backend & APIs

- .NET (C#), Node.js (TypeScript), Python
- REST & SOAP APIs, OpenAPI
- SQL & relational data modeling

Cloud & DevOps

- AWS (EC2, Lambda, API Gateway)
- Docker, CI/CD (GitHub Actions, GitLab CI)
- Terraform (Infrastructure as Code)

Frontend

- React, TypeScript, Angular, Vue
- State management (Redux)
- UI implementation from Figma designs

Platforms & Integrations

- Salesforce (Education Cloud, Sales Cloud)
- Headless CMS (Strapi)
- Payment gateway integrations (Stripe, FlyWire)

Employment Experience

IT Project Manager

Pontifical Catholic University of Chile (Non-For-Profit Higher Education Institution)
Santiago, Chile
07/2022 – 08/2025

- Led technical initiatives within an Education SaaS ecosystem built on Salesforce Education and Sales Cloud. Designed and maintained CRM data models supporting admissions, enrollment, and continuing education processes.
- Coordinated system enhancements, managed releases, and supported production environments while collaborating with academic, admissions, finance, and marketing teams.

Project Engineer (Software engineer)

Kimn-IT
Santiago, Chile
01/2020 – 06/2022

- Developed production-grade full-stack systems used by banking institutions across Latin America.
- Designed and implemented REST and SOAP APIs supporting distributed frontend applications and hardware-integrated solutions. Contributed to backend development using .NET Core and SQL Server, ensuring reliability and transactional consistency in high-availability environments.
- Integrated third-party SDKs and hardware components, supporting interoperability across distributed systems

Volunteering Experience

Volunteering in Web Development Team

White Haven Community Football Club (Non-For-Profit Community Institution)
Scarborough, Canada
10/2025 – Present

- Contributed to web platform improvements and CMS integrations using REST-based services and headless architecture principles.

Education

Bachelor's Degree in Engineering Sciences (Software Engineering)

University of Santiago (USACH)
03/2013 – 12/2021
Santiago, Chile
